

Tork Universal Toiletpapir Jumbo Ekstra Lang

Artikel: 120165

System: T1 - Jumbotoiletsystem

Lag: 1

Farve: Natur

Tryk:

Prægning:

Rullebredde: 9.8 cm

Rullelængde: 660 m

Rullediameter: 30 cm

Indvendig kerner diameter: 5.9 cm

Produktspecifikation

- Velegnet til steder med rigtig mange besøgende
- Økonomisk rullelængde
- Ekstra lang rulle - færre genopfyldninger

Forsendelsesdata

Forbrugerenhed:

EAN: 7310791199559

Stk.: 1

Højde: 98 mm

Bredde: 300 mm

Længde: 300 mm

Volumen: 8.8 dm³

Nettovægt: 1714 g

Bruttovægt: 1738 g

Transportenhed:

EAN: 7310791199566

Stk.: 6

Forbrugerenheder: 6

Materiale: Plastic

Højde: 298 mm

Bredde: 300 mm

Længde: 600 mm

Volumen: 53.6 dm³

Nettovægt: 10.28 kg

Bruttovægt: 10.64 kg

Content

Recycled fibres, Chemicals

Material

Recycled fibres Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some

cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view. The used functional chemicals are: Dry strength agent Dye Fixing agents Fluorescent whitening agent Glue Softeners The process chemicals are: Antipitch Protection agent Yankee coating Defoamer Dispersing agents and surfactants pH and charge control Retention aids Broke treatment chemicals Drainage aid Packaging Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = Ecolabel This product is approved for Swan label, licence 305 022.

Date of issue 2007-11-06

Revision date 2009-11-02

Production

This product is produced in Lilla Edet mill, Sweden, certified according to ISO 9001, ISO 14001.

Destruction

This product is suitable to be taken care of in the normal sewage system of the community.
